Help & Tips

10 Here you will see any **actions** that have been performed for the ticket

The screenshot displays a ticket resolution interface. On the left is a dark blue sidebar. The main content area has a teal header bar that says "Ticket Resolved" with a checkmark icon. Below this, there are two sections: "COMPLETED STEPS" and "PERFORMED ACTIONS". The "COMPLETED STEPS" section contains two items, each with a checked checkbox: "Confirm issue" and "Add actions". The "PERFORMED ACTIONS" section contains one item with a checkmark: "Other Apr 10 , Shipped Via Fed EX Tracking Number 1119193471520009238". An orange circle highlights the word "Other" in this action. Below these sections is a button labeled "ADD COMMENT" with a speech bubble icon. At the bottom, there are three tabs: "Timeline", "Followers", and "Emails".

11 Once the shipping label has been created, the information will be added to this area. You can copy the tracking number and enter it into the corresponding shipper's website to get updates on the shipment status.

This screenshot is similar to the one above, showing the same ticket resolution interface. The "PERFORMED ACTIONS" section now contains a longer tracking number: "Other Apr 10 , Shipped Via Fed EX Tracking Number 1119193471520009238200728205547869". An orange circle highlights the word "Other" in this action. The rest of the interface, including the "COMPLETED STEPS" section, the "ADD COMMENT" button, and the tabs at the bottom, remains the same. In the bottom left corner, the text "ncident IQ ®" is visible. Below the tabs, there is a date "4/10/24" and a blue circle with the letters "FS".
